

Evaluating Your Support Coordination Services

Support coordinators work with you to plan for and find services that help meet your needs and reach your goals. It is important to ask yourself if your support coordinator is assisting you to get the support you need. You should take time to let them know what they are doing well and where you think things could be better.

When your support coordinator is not providing the help you need, you have the right to seek services that are a better fit.

Below is a tool you can use to help figure out if your support coordinator is meeting your needs. You may want to include your family, friends, and others that care about you in helping you think about your answers.

Circle "yes" if your support coordinator is doing what is listed in the statements below.
Circle "no" if your support coordinator is not doing what is listed in statements below.

Is Your Support Coordinator Meeting Your Needs?
